Our 6th visit to

Jackson Hole, Wyoming

July 17 - 19, 2009

Practical techniques in medicine and surgery

with
When the snow melts and the wildflowers bloom, there's no better place for sightseeing and playing than Jackson Hole.

Explore the Tetons on Grand Teton National Park's miles of well-marked hiking trails. Discover the Park's lakes by boat, or take a park ranger-led hike and hear presentations of wildlife, geology and history. The Bridger-Teton National Forest surrounds Jackson Hole on three sides. With 3.5 million acres of mountain terrain, it's perfect for hiking, fishing, photography, mountain biking, camping or just relaxing.

The seminars

Practical techniques in medicine and surgery

with

Theresa Fossum D.V.M., Ph.D., dip. ACVS
Theresa Fossum D.V.M., DACVS is a diplomate of the American College of Veterinary Surgeons. Dr. Fossum is Professor of Surgery and holds the Tom and Joan Read Chair in Veterinary Surgery at Texas A & M and Associate Director for Cardiothoracic Surgery and Biomedical Devices in the Michael E. DeBakey Institute at Texas A & M. She is also the primary author of the new text *Small Animal Surgery*. Dr. Fossum is an internationally recognized speaker on surgical topics and is ready to share some of her surgical tips with you.

Dr. Matt Miller D.V.M., DACVIM is a cardiologist known for his practical presentations on topics of interest to the practitioner. Matt has lectured around the world and is internationally recognized in cardiac ultrasonography and therapy.

This case-based course has been designed to provide a discussion on common medical & surgical problems encountered in general practice. Most of the discussion will provide information on what the speakers are thinking about when they plan to do a particular procedure along with techniques in practical management of each problem. Learn current surgical techniques and treatment strategies that will decrease postoperative complications, morbidity and mortality.

- Managing acute and chronic diaphragmatic hernias
- Managing the ruptured bladder
- Managing chylothorax
- Managing pyothorax
- Managing GDV
- Intestinal blockage- cats with string and dogs with everything else
- Masses in the spleen and liver
- Laryngeal paralysis
Those noisy little dogs
