Few places on earth can live up to their own mythology, but Monterey is a notable exception. No matter what you’ve heard or seen in feature films, nothing can prepare you for the jaw dropping beauty along its fabled coast and village-like pedestrian thoroughfares. John Steinbeck was a frequent visitor, and drew considerable inspiration from area landmarks including Cannery Row, which he helped to immortalize in his novel of the same name. Today, restaurants, boutiques and attractions like the Monterey Bay Aquarium have helped make Monterey a favorite destination for visitors from around the world.

September and early October are ideal times to visit the Northern California and the Monterey Bay. The fog is out and the days are warm...
**Monterey**

**Things to do:**

**Kayaking is a special way to** experience the Monterey Bay and its environs. Floating on the water in a single or two-person kayak, you can get "up close and personal" with the sea otters, harbor seals, sea lions and other inhabitants of the Monterey Bay National Marine Sanctuary. And whether you're an expert or are interested in taking your first kayak lesson, Monterey offers an unparalleled experience for all levels.

Several local outfitters offer safety instruction and interpretive tours of the Monterey Bay and Elkhorn Slough led by marine biologists, which provide an insider's appreciation for the fragile ecosystems. They usually offer group or individual lessons, kayaking accessories, a place to change, and, often, a place to take a hot shower.

**Monterey Bay Aquarium**

Discover life in Monterey's bay without leaving dry land at the Monterey Bay Aquarium. Dedicated to marine research and conservation, the Monterey Bay Aquarium is known throughout the world for its interactive exhibits and ability to present marine life on a truly grand scale. [Learn more...](http://www.ivseminars.com/Monterey%202009.htm) (3 of 12) [11/26/2008 4:23:03 PM]

**Cannery Row**

Happy 50th Birthday, Cannery Row! Fifty years ago, in January 1958, the City of Monterey officially re-named Ocean View Avenue "Cannery Row" in honor of John Steinbeck. Marking Cannery Row's 50th birthday will be the opening of the first hotel built on Monterey Bay in more than 20 years and a 290-seat IMAX theatre.

Today's Cannery Row also features more than 25 restaurants stretching along the historic streets and waterfront, offering a variety of cuisines from formal to casual. Visitors can also browse through an eclectic blend of specialty shops and local artists' galleries, and sample Monterey County wines and gourmet foods. It's easy to shed your car and go "green and marine" on Cannery Row, taking in the wonders of the Monterey Bay National Marine Sanctuary by scuba diving with the starfish, kayaking with the sea otters, or bike riding from...
Monterey

beach to beach along the Monterey Bay Coastal Recreational Trail. Learn more...

IMAX Monterey

Just a block from the Monterey Bay Aquarium is Cannery Row's brand new IMAX Theater! Watch feature length 3D movies and dive into 12,000 watts of digital-surround sound and giant-screen action. The Cannery Row IMAX Theater also houses an exclusive Guy Buffet Art Gallery, and the Edgewater Cafe which serves Italian favorites such as gelato, sorbetto, espresso, pastries and chocolates. Learn more...

Fisherman's Wharf

Old Fisherman's Wharf in downtown Monterey should be on the "must-do" list of every visitor to the area. This is a great place to take in the sights and sounds and smells of Monterey. Because neighboring Wharf 2 is the heart of the area's thriving fishing industry, you can usually watch the working trawlers unloading the catch of the day — just look for all of the seagulls hoping for a handout to know who's had a successful day on the Bay! Stroll down the wharf with a cup of hot clam chowder, or stop by one of several restaurants featuring fresh Monterey Bay seafood. You can photograph sea lions and otters frolicking in the calm inner harbor waters, or, if you're feeling more adventurous, take to the waters with a glass bottom boat tour, deep-sea fishing trip or whale watching tour in season. Learn more...

17 Mile Drive

Discover Nature's treasures as you explore one of the most scenic drives anywhere in the world. 17 Mile Drive, which runs through Del Monte Forest, is seventeen miles of sea and sky, immaculate golf courses, and dream homes set graciously behind elegant gates. Here you will experience the magic of this legendary scenic tour that's home to The Lone Cypress, Seal and Bird Rocks, Fanshell Beach, Point Joe, and the colliding currents of The Restless Sea, as well as the natural habitat of the black cormorants, brown pelicans, California sea otters, harbor seals, and idle sea lions. Additionally, along the way, you'll encounter the emerald fairways of such famous golf courses as The Links at Spanish Bay, Spyglass Hill and the world-renowned Pebble Beach Golf Links. For a gourmet picnic lunch along 17-Mile Drive, visit Pebble Beach Market adjacent to The Lodge at Pebble Beach.

(Some activities require early reservations but most can be organized by the hotel concierge)

Where is Monterey County?
Monterey County is in Central coast California about 100 miles South of San Francisco and includes Big Sur, the Salinas Valley and most of Monterey Bay.

The major highways into Monterey county are Highway 101 and Highway 1.

**How to get here - Monterey Peninsula Airport (MRY)**
Distance 5 MI / 8.05 KM NORTH EAST to Hotel

Self-parking: $17.00 per day
There are also private parking centers close-by.

Continuing education

How I manage common canine and feline ocular problems

with

David Maggs B.V.Sc.
Diplomate, American College of Veterinary Ophthalmologist
Assistant Professor of Ophthalmology
This course will update you on the recent diagnostic and therapeutic breakthroughs for the most common canine and feline ophthalmic problems using a combination of didactic and case-based teaching.

Dr. David Maggs is a Diplomate of the American College of Veterinary Ophthalmologists and has published in the major veterinary journals & texts including JAVMA & Consultations in Feline Internal Medicine & is co-editor of the Feline issue of Veterinary Ophthalmology. David spent several years in private practice prior to obtaining an internship at Colorado State University. He is currently an Assistant Professor of Ophthalmology at The University of California at Davis. David has lectured at the regional and national meetings and has promised me that the seminars have been structured to maximize the material that you will take with you to your practice. His presentations to our groups in Cancun & on Hilton Head Island in 2000, on Nantucket Island in 2001, in Napa in 2003 and Seattle in 2004 were very well received by all in attendance.

Dr. Lynelle Johnson is one of the leading experts in the field of small animal internal medicine. She has published extensively in all the major journals & texts including JAVMA, Compendium on Continuing Education, Textbook of Internal Medicine, Consultations in Feline Internal medicine, The 5-minute veterinary consultant & Current Veterinary Therapy. Lynelle will present an update on the systemic diseases that present with ocular manifestations.

The topics:

- Examination Techniques and Ophthalmic Diagnostics
  - How can I do a better eye exam?
  - What are the secrets for detecting ophthalmic lesions?
  - The Tonopen - at last measuring IOP is easy
  - What's the best test for feline herpes virus?
  - When should I culture the conjunctiva or cornea?
  - Can I do my own ophthalmic cytology?

- Ophthalmic Surgery
  - What instruments do I need for ophthalmic surgeries?
  - Are there special techniques that will make me a better ophthalm...
monterey

surgeon?

Eyelid tumors - to cut or to freeze, that is the question.

Entropion surgery - from Shar Peis to Labradors

Which surgical technique is best for "cherry eye"?

Conjunctival grafts: Why, when and how?

● Surface ocular disease

Itchy skin, swollen eyelids, what next?

Why is this cornea opaque

What does it mean when the cornea turns blue?

KCS - not just cyclosporine

How deep is that ulcer?

Three reasons a corneal ulcer won't heal

Can I do a grid keratotomy in my practice?

Feline herpesvirus: new treatments for a frustrating disease

Why are there blood vessels on this cornea?

● Intraocular disease

Is this glaucoma primary or secondary?

Drugs for glaucoma - not just Timolol any more.

Should I do an intravitreal injection of gentamicin?

Is this nuclear sclerosis or cataracts?

When should I refer this dog for cataract surgery?

What diagnostic testing should I do for this cat with uveitis?

Which steroids should I use for uveitis?

Should I get an aqueous sample and how do I do it?

● Retinal disease

I wish I was better at the fundic exam - here's how.
There's so much variation in fundic appearance - what's normal?

How do I detect retinal detachments?

I know this dog is blind. I want to know if there is anything that can be done for him.

Anisocoria - pupils that teach

Feline hypertension - at last there's a detached retina we can treat!

Is this eye trying to tell me that the whole patient is sick?

- Ophthalmic Emergencies

When is it a real emergency?

How do I suture eyelid lacerations so that they heal well?

Acute congestive glaucoma - which drugs, which routes, how often?

This eye is perforated - is there anything I can do?

Why did this patient suddenly go blind?

Seminars will include big screen video demos - You will enjoy this format!

Seminar schedule: (16 AAVSB RACE approved CE hrs- accepted in most states including CA, WA & OR)

Registration:

Friday September 11 7.15am - 8.00am

Seminars

Friday & Saturday 8.00am - 1.30pm

Sunday 8.00am - 1.00pm

Continental breakfast 7.30am
- 8.00am daily

Registration fee: (16 CE hours- AAVSB RACE)
Monterey approved - accepted in most states including CA

- Earlybird by August 6 $645.00
- Advanced by Sept. 1 $665.00
- Regular $685.00

- Complete seminar notes
- Continental breakfast daily
- Certificate of completion
- Cancellation: 90% refund. Seminar transfer only, after August 11, 2008

Register for the seminar online or by mail, fax or phone 1-800-487-5650
**CE credits**

IVS complies with the following guidelines:

- Speakers are recognized specialists
- Mandatory recorded attendance
- Certificate of attendance
- Complete seminar notes

IVS is an American Association of Veterinary State Boards RACE approved provider of Continuing education. Approved in most states.
